

# Who do you know...

Who do you know who has suffered and *survived* a critical illness?

- Make a list including family, friends, neighbors, business associates...
- Jot down what they had and how old they were when diagnosed with a critical illness.

## Now ask yourself...

- Which of them planned on being on that list?
- What difference would \$100,000 have made?

### LifeAdvance

covered conditions:

- Heart Attack
- Cancer Stroke
- Heart Bypass Surgery
- Multiple Sclerosis
- Alzheimer's Disease
- Parkinson's Disease
- Major Organ Transplant
- Paralysis
- Kidney Failure
- Coma
- Blindness
- Severe Burns
- Loss of Speech
- Deafness
- Occupational HIV
- Loss of Limbs
- Motor Neuron Disease (ALS)

## You are never too young:

- The average age of the people making claims in the past three years was 41.
- A quarter of all claims were from individuals under age 35.
